C. Instructions

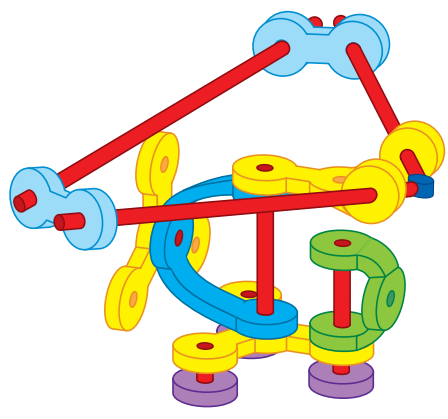

Study the assembly instructions and organise the parts before you begin building. The parts provided are used to build all of the first 4 models. You may then take them apart to construct the bonus models, which are considerably more complex. You can also design and make your own creations!

1. Follow the "Tube Cutting Guide" below to cut the tubes to length, according to the quantities required for this kit.
2. Carefully clear away the holes from the foam parts.
3. Take care not to damage the foam parts when inserting the tubes.
4. The foam parts can bend to form new shapes.
5. Squeeze the ends of the 2-pin connectors before inserting them into the tubes.
6. Twist the tubes onto the 2-pin connectors.
